

THE VICTORIOUS

"Gladiator."

A COMMITTEE of nine mechanical engineers employed by the Edward P. Allis Company, of Milwaukee, Wis., the most skillful manufacturers of engines and machinery in the world, after examining and testing thirty-six different makes of high grade bicycles, pronounced the "Gladiator" the most scientifically constructed, easy running and highly finished bicycle in existence. Upon their judgment a large order for

GLADIATOR BICYCLES...

was placed, for the use of members and employees of that company. No test so severe and thorough as this has ever been made. Prospective buyers can be guided with safety by this decision. The "GLADIATOR" is truly a "WHEEL OF PERFECTION."

A Collation of News from All Over the World.

Feast of Political, Commercial and General Intelligence for Eagle Readers.

Epoch in Railroad.

The tremendous speed of over ninety-four miles an hour was reached at the trial of the Holman friction-gear locomotive drawing a train over the tracks of the South Jersey Railroad Wednesday afternoon at Cape May, N. J. The speed did not, however, meet the expectations of Inventor Holman, who is bent upon sending the engine along at the rate of 100 miles an hour. He declares that any good, well-built engine can be made to go at the rate of nearly two miles a minute, if equipped with the friction gearing. The engine drew a tender and two ordinary passenger coaches. The cars were filled with interested persons and newspaper men. The speed during the run was terrific, and the wind whistled through the cars like a cyclone. The engine worked smoothly and started and stopped without shock. Those in charge of the run claimed that the distance covered was too short for the locomotive to get fairly started. It was claimed that the friction gearing was just getting into running shape when the steam had to be shut down preparatory to stopping.

TO TEST POSTAL LAW.

Lake Shore Road Will Start Carrying Its Own Letters.
The railroad people propose to test the right of Postmaster General Wilson to prohibit them from carrying their own and the letters of other roads. The Lake Shore railroad will make a test. Its superintendent has issued an order to all of the road's employees to carry mail pertaining to the business of the road, and letters for other roads relating to joint business affairs. Maj. Stuart of the Chicago postal inspection department, to whom the enforcement of the postal laws falls, said that he had not heard of any agreement to test the law, but if the Lake Shore desired to make a test of it the government would be very apt to accommodate it by prosecuting the violators. "If the Lake Shore violates the law and it comes to my knowledge," said the inspector, "I will make a report on the case to the Postmaster General and do what ever he instructs."

DROVE OVER A LITTLE GIRL.

Child Deliberately Killed by the Driver of a Taxicab.
Grace Pierce, the 10-year-old daughter of Elisha Pierce, a 10-year-old New York G. A. R. man, was run over and killed by a car driver, in Eighth avenue. The little girl, with a boy friend, had been riding their bicycles up and down the avenue and in turning out for a passing carriage ran in front of a two-wheeled car, loaded with paving material. She became frightened and fell from her wheel. The driver of the car stopped, and then, for some reason, started up again and drove deliberately over child and bicycle, injuring her so that she died shortly afterward.

National League.

Following is the standing of the clubs of the National Baseball League:
W. L.
Cincinnati ... 27 Philadelphia ... 38 44
Baltimore ... 33 Brooklyn ... 38 45
Cleveland ... 34 Washington ... 34 45
Chicago ... 32 New York ... 38 48
Boston ... 43 St. Louis ... 27 57
Pittsburg ... 44 Louisville ... 21 60

Western League.

Following is the standing of the clubs in the Western League:
W. L.
Indianapolis ... 20 Detroit ... 41 39
St. Paul ... 40 Milwaukee ... 40 47
Minneapolis ... 48 St. Paul ... 31 53
Kansas City ... 45 Columbus ... 27 60

Victim of the Bike.

Death of a Chicago Butcher.
William Klink, a Chicago butcher, was struck by a woman bicyclist while crossing the street. He was taken to his home, where he died in a short time. The woman bicyclist, when she saw what had happened, increased her speed and disappeared down a side street. According to witnesses she was scorching at the time of the accident and was going at a very rapid rate when Mr. Klink was struck. The collision did not throw the woman from her wheel, and it is thought the handle bar struck him in the stomach.

Death List Is Increasing.

Tales of death and devastation from the awful storm which swept over Western Pennsylvania, continue to pour in. Four more drownings are reported, and another victim of the Sugar Grove accident is not expected to survive. This will make the death list fifteen, including the seven drowned at Cecil.

Michigan Game Law Upheld.

The act prohibiting the sale of quail and brook trout out of the open season was sustained by the Michigan Supreme Court. Thomas O'Neill and Jacob Hoffmann were convicted. The defense was that the trout and quail were shipped into the State as articles of food.

Railroad Line Is Wiped Out.

The fact has just become known that last Saturday's flood entirely destroyed the Catskill branch of the Union Pacific Railroad, Denver and Gulf Road, forty miles in length, running from Trinidad, Colo., to the Maxwell land grant in New Mexico.

Too Young for State Prison.

Gov. Bushnell, of Ohio, transferred Charles Gilbert, a 15-year-old boy, to the State Reform School. He was recently convicted in Fayette County of horse stealing, and sentenced to the State prison for five years. He is said to be a most precocious criminal.

Murderer Green Hanged.

Bert Green, colored, convicted of the murder of Miles P. Mitchell near Whiteville, Hardman County, in December last, was hanged at Jackson, Tenn. Green protested his innocence to the last.

Insurance Concern in Trouble.

At Albany, N. Y., Superintendent of Insurance J. F. Pierce reported to the Attorney General that the East River Mutual Insurance Corporation, Long Island City, is an insolvent corporation. There is a deficit in the company's capital stock of \$115,188.

Cholera Decreasing in Egypt.

Cholera is decreasing, and there were only 150 new cases and 100 deaths throughout Egypt on Saturday. The deaths include those of Captain Fenwick at Firket and Surgeon Captain Trask at Koshah, who were members of the Nile expedition.

WILL SAVE HIS FATHER.

Son Will Return to Russia to Serve in the Czar's Army.

William Goldthwaite, a Russian, residing at Plainfield, N. J., acknowledges that he is the slave of the emperor of all the Russias, and has bowed to the inevitable will and announced his intention to return to his native land at once. By so doing he will save his father from a severe penalty, which, in the old man's case, might mean transportation to the dread Siberian mines, or even worse, as he is under the ban as a former revolutionist, and suspected of participation in the assassination of the Emperor Alexander II. Young Goldthwaite is a native of Moscow, and has been in this country several years. His birth took place on the 25th of August, 1875, and is for many years recorded in the register of Moscow. On the 20th of May the imperial police copied his name upon the enlistment rolls of the empire, and, according to the laws, he must report for enlistment in the regular army within 72 hours of sunrise of the day the marks of maturity of his birth. If the young man had his own way he would remain in this country and defy the Russian Czar and the imperial laws, as he has become attached to the land of his adoption. But he cannot help himself except at the sacrifice of his own father. The notice of enlistment was given his father, who is a paper dealer in the suburbs of St. Petersburg, and unless William reports on the first day of September the father will have to bear the penalty. The young man has no idea what his fate will be, but his conjectures are colored with dark forebodings. William will go back to save his father and remain in the army for three years.

JAPAN'S FOREIGN TRADE.

One-Third of the Exports in 1903 Were to the United States.
Consul General Melvor at Kanagawa has forwarded to the State Department cables showing the foreign trade of Japan for 1903. The total value of exports was \$68,000,000 and of imports \$65,922,803. Of this amount the United States is credited with \$27,554,704 for exports and \$4,730,943 for imports. The customs duties collected were for exports, \$1,150,281; imports, \$2,101,800; miscellaneous, \$88,045, making a total of \$3,936,126. During the year 1,803 steamers and 1,005 sailing vessels entered the ports of Japan from foreign countries. Of these ninety-six were American, 997 British and 371 German. Forty-nine American steamers and seven sailing vessels were engaged in the coastwise trade of Japan, against 701 British, 104 French and 181 German. Japan exported \$1,423,805 gold and \$12,400,970 silver bullion. She imported bullion to the value of \$625,355 in gold and \$2,470,568 in silver.

LOST IN THE FOREST.

Aged Man Trapped in Dense Woods, Living on Tree Bark.
Richard Kingston, an aged Wilkesbarre, Pa., man, went into the woods Monday to pick berries and lost his way. The forest is alive with wildcats, and his only protection was to keep continually moving. He wandered miles upon miles in the forest and lived upon the berries and tree bark. His faithful dog remained with him and guided him toward a mountain stream that flowed under the rocks and boulders. While resting at this spot a shrill whistle of a locomotive came to his ears and he wearily tramped toward the sound. He reached the edge of the forest at length and was found by fishermen in an exhausted condition. It is doubtful if he recovers.

All Want the New Note.

The Treasury Department at Washington has almost reached a sensation on the country in the issue of the new one-dollar silver certificates. The bill has proved very popular, and demands for it have come in from banks in all parts of the country. The officials have been obliged to put a limit on the amount that will be issued for the present to any one bank, and the figure is fixed at \$500. There has been every day since Thursday, when the notes first came out, a string of applicants for them, like that at a box office at a popular playhouse. For three weeks people have been writing with inclosures of cash asking for an exchange. Some of the banks have offered gold for the new notes, and these have always been accommodated to the full amount offered. In all about \$10,000 of the notes have been taken out in Washington, while some \$50,000 has gone to the country at large. Over \$25,000 was sent away Saturday. It is only a question of a short time when there will be plenty to supply every call.

Death in a Cloudburst.

A cloudburst in Bear Creek canyon, just above Morrison, Colo., Friday night sent down a solid wall of water ten feet high, which did great damage to property, but caused the loss of fifteen to twenty lives. A party of campers, fifteen or eighteen in number, were living in a small house just below town. All but one are lost, but their names could not be learned. Vice Foster, a little Denver girl, who was with this party, was saved. Searching parties are out on both sides of the stream looking for bodies of dead and injured. It is feared there has been more loss of life, as there were scores of people camped on both sides of the creek, both above and below the town. Wires were down in all directions, except the telephone line to Leadville. At Golden, Colo., three lives are known to be lost and thousands of dollars' worth of property is destroyed.

At the Treasury.

No gold went out for export Saturday \$307,100 for hoarding and \$5,400 in gold bars. On the other hand, \$1,400,000 in gold coin was deposited in the sub-treasury by New York bankers, making the gold reserve at the close of business stand at \$103,088,180. The other financial centers are also coming forward to reinforce the treasury, and gold was offered in exchange for legal tender notes to the amount of \$6,000,000. Of this Chicago offered \$2,500,000, Philadelphia \$2,500,000, and Boston \$1,000,000.

Attorney Halliwell Pardoned.

Gov. Renfrow at Guthrie, O. T., pardoned William D. Halliwell, a well-known attorney of Newkirk, formerly of Winfield, Kan. He issued a fraudulent check to a little girl who was friendless on the street, enabling her to go home, and was bitterly prosecuted. He has served nearly two years and has become almost entirely blind.

Demonstration for Cecil Rhodes.

The correspondent of the London Times at Cape Town says that a crowded luncheonistic meeting has been held in favor of the reinstatement of Cecil Rhodes as managing director of the British Chartered South African Company, but that most of the leading and influential people of the colony were absent from the meeting.

Schooners Go Down with Crews.

Two French fishing crews report at St. John's, N. F., that the schooner Anna Marie, with twenty-one men, was sunk in a collision with the schooner Pacific and that the schooner Tedi, with fifteen men, foundered.

Sheriff and Highwayman Shout.

The bodies of Sheriff David Douglas and an unknown highwayman were Monday found lying a few feet apart in a woods two miles from Nevada City, Cal.

There were five empty chambers in the pistol of the Sheriff, who had been shot through the heart and in the right eye and hand. The bullets of the Sheriff had gone through the robber's heart, abdomen and hip. The unknown man had a rifle, but it had not been used. It is supposed Douglas was shot by a confederate of the highwayman. A number of bold highway robbers recently reported in the neighborhood have all seemed to be the work of one man, who stopped coaches and private conveyances on the roads near Nevada City. The Sheriff and his deputies had been untiring in their efforts to capture the robber. Finally Sheriff Douglas, believing a large squad of deputies served to put the highwayman on his guard, determined to attempt the chase single handed, and started out Sunday accompanied only by his dog. The dog returned at midnight, and at day-break searching parties tracked the Sheriff to the spot where he lay dead.

WATER CYCLE A SUCCESS.

Speed of Four Miles an Hour Made by a Tandem Machine.
A water bicycle which has been recently invented was successfully tested Sunday in the Potomac river, near Washington. The test demonstrated the fact that bicycling on water may become as fascinating as bicycling on land. The new bicycle is a tandem and carried two men, whose combined weight was 350 pounds. It is called a hydrocycle. This is mounted between two cigar-shaped air-tight floats, and is operated by pedals and paddles, and is steered by a fin resembling the tail of a shark. Though a speed of only four miles an hour was attained, it is claimed that under more favorable circumstances ten miles can be made.

EXPORTS OF GOLD CHECKED.

Committee of New York Bankers Reports a Plan Which Is Adopted.
The committee of seven appointed at the recent meeting of the exchange bankers to devise a plan for the prevention of gold exports during the next ninety days, presented a complete report to the full body at a meeting held at the offices of J. P. Morgan & Co., in New York. The plan was pronounced effective, and was unanimously adopted and the committee discharged. The plan will take effect immediately. A member of the firm of J. P. Morgan & Co. said no public statement could be made at this time. Deposits of local banks at the sub-treasury foot up \$375,000, and swell the grand aggregate to \$18,015,000.

RACE WAR IN FLORIDA.

Four White Men and Two Negroes Reported Killed.
It is reported that a race war has occurred about fifteen miles east of Jasper, Fla., in which six men were killed and seven seriously wounded. The tragedy is said to have taken place at Haggard's turpentine still, where many negroes are employed. It is reported that the colored men gave a party and while it was in progress a number of white men intruded and the shooting resulted.

Satelli Will Return to Rome.

The report that the pope had offered Cardinal Satelli the choice of returning to Rome or remaining at his present post, and that the latter course had been decided upon, is denied by Cardinal Satelli. It is officially stated that no advice as to a change in plans have been received, and that it is almost a certainty Cardinal Satelli will go back to Rome after the assembling of the next consistory, when his successor will be announced.

Steer on a Rampage.

For two hours Friday a wild Texas steer held the attention of the people of Allegheny, Pa. Mrs. Joseph Neal was knocked down and trampled upon. Another woman lost her skirt, which the steer hooked with its horns. A man named Thomas threw an open umbrella at the beast. The steer caught the umbrella on its horns and couldn't get it off. In the West Park the animal was shot.

Druggist Stabbed to Death.

L. S. Coffey, president of the Illinois State Board of Pharmacy, was stabbed and killed in Cairo, Ill., the other night, while on his way to take a train for Springfield to attend a meeting of the Board, by Dr. Crabtree, in front of the latter's drugstore. Crabtree is in jail. Coffey was stabbed twice with a dagger, one thrust reaching the heart. Both men were prominent druggists.

Want Another Convention.

Gold standard Democrats will hold a national convention not later than Sept. 2. Where this convention will be held, and how the delegates will be selected, remains yet to be determined. This much, however, was decided by the executive committee of sound-money Democracy which met in the club room of the Chicago Auditorium Friday.

Fell Dead from Heart Disease.

Miss Jane McNeil, one of the faculty of the San Antonio, Texas, Normal College, dropped dead of heart disease while delivering a lecture on psychology before the class. She was of high standing in educational work in the State.

Eugene Spuller Is Dead.

At Dijon, France, Eugene Spuller, politician, journalist and author, is dead, aged 61.
